

Cincom and its partners provide innovative software solutions and services for those areas of business most critical to business simplification.

Cincom at a glance

- Headquarters in Cincinnati, Ohio, USA
- 15 offices in 10 countries
- Thousands of clients on six continents – hundreds of whom have been with Cincom for over 35 years
- Balanced revenue – 56% from North America, 37% from Europe and 7% from the rest of the world

A long-term partnership

- Cincom was founded in 1968 by Thomas M. Nies, a former IBM sales representative. Nies is currently the longest actively serving CEO in the computer industry.
- Cincom has provided IBM-complementary software since its inception and has been an IBM partner for 11 years.
- There are over 800 IBM mainframe customers running Cincom SUPRA[®], Cincom MANTIS[®], Cincom Document Solutions – or a combination of the three.

Cincom SUPRA Server PDM: reliable, high-volume, online transaction processing for mission-critical applications

- **Cincom SUPRA Server PDM** is Cincom's hierarchical, interactive database management system. SUPRA maintains data and coordinates database access, processes requests from tools and precompiled programs and provides backup and recovery tools.
- Targets:
 - CIO and Database Manager

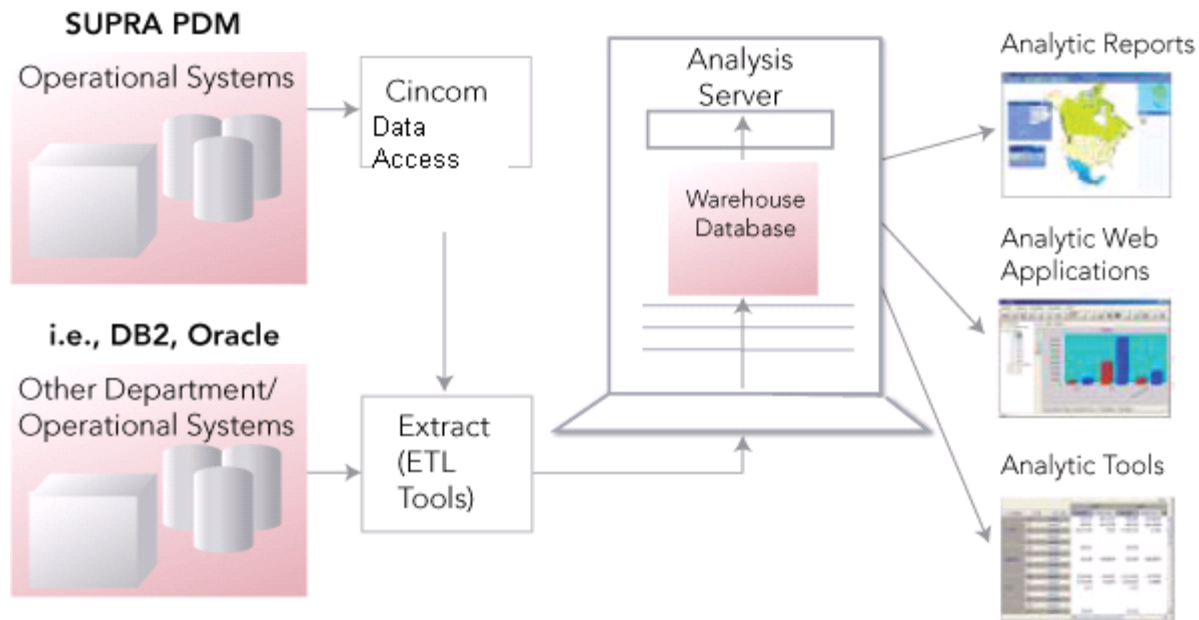

Cincom SUPRA Server PDM: reliable, high-volume, online transaction processing for mission-critical applications (continued)

- Qualifying questions:
 - Are you seeking data independence from applications?
 - Do you need a high-performance database that is capable of handling millions of transactions a day?
(examples: Fortune 100 companies, large retail banks)

The Cincom SUPRA open, unified, business-intelligence package is a complete data warehouse solution that can be delivered incrementally.
